- b. Financials: Councilors ask about incongruities between what the former administration told them and the documents presented; they were told the SDC fund had almost \$10,000,000 (ten million) in the account, but it actually has approx. \$800,000 (eight hundred thousand). The amount being presented to the Council in the documents is the correct amount. The Councilors the discuss if Financels should go in the Consent Calander for approval or in the departmental reports; Legal Counsel Kudlack stated that either could be appropriate, the Council decided via consensus to have finances in the departmental reports.

<b>Councilor Burns</b>	Yes	Councilor Pogwizd	Yes	Councilor Rask	Yes
Councilor Tidey	<u>Yes</u>	Councilor Vileisis	<u>Yes</u>	Councilor Webb	<u>No</u>

- b. Councilor Rask requested that N2N be added as a liaison report. Councilors agree by consensus.
- 5. Citizen's Concerns By Consensus the City Council is allowing items not the agenda to be spoken on tonight.
  - **a. Diana Marmon:** Has presents a petition from her neighborhood to lower the speed limit on Hamlet from 25 MPH to 15 MPH for safety of kids and wildlife. The Council discussed speeding throughout the town and possible solutions and directed staff to review the procedure to change the speeding limit and research other possible solutions.

- **b.** Bob Mielenz: Question about the minutes, item 10 (b) (N2N having trouble with city staff) wants to know what those troubles are. Speaking of the homelessness issue, he says that anything the city subsidizes we get more of and urges careful consideration of the direction the city is going.
- c. Kate McClung: 2 issues to discuss
  - i. Homelessness: She has lived here for almost 20 years, 16 peaceful ones but the last 2 years have been turbulent. She has been exposed to physical and verbal fights from the homeless population in town; though N2N has rules for those they are trying to help, the rules aren't being followed. This has driven her property value down and she feels as though she may have to sue the city due to recoup the loss. Why does the city have to provide something for these people? It doesn't have the spare resources.
  - **ii.** Speeding on Idaho is out of hand; a petition was filled out and filed in 2022 to reduce the speed on Idaho but nothing was ever done about it. The neighborhood has a lot of children that play and speeding is a hazard. The council directs staff to include Idaho in their research on speeding solutions.

#### 6. Departmental Reports

- a. Administration
  - i. Business Oregon Grant \$750K for water recycling: The City has been awarded a grant for water recycling in relation to the Pacific Gales project and CA Huttl would like some direction on what the Council would like to prioritize. The Council asks clarifying questions about our obligations and what the grant could be used on. At the time of the extension on the project permit, Legal Counsel Kudlack stated we wouldn't have any obligation to the Pacific Gales project. The councilors don't think there's enough information at this time and directs staff to review the legislation, do more research with the state to see what we can do, generate a list of possible projects, and schedule a workshop date/time if a larger discussion is necessary.
  - **ii. BRIC grant explanation of non-award:** The BRIC grant we applied to earlier this year was not approved, but the letter they sent seems to allow the city to re-submit after clearing up some issues. The council discussed if they thought this seemed worth while when the city scored less than 60/100 on both applications. Huttl requested an hour to discuss with the Civil West engineer who helped us put the application together so we can learn how to increase our scores for the next one.
    - 1. Councilor Vileisis motions to direct staff to spend an 1-2 hours with the engineer to learn more.
    - 2. Councilor Pogwizd seconds the motion.
    - 3. The vote passed unanimously yes @ (7:15)

<b>Councilor Burns</b>	<u>Yes</u>	Councilor Pogwizd	Yes	Councilor Rask	Yes
Councilor Tidey	Yes	Councilor Vileisis	Yes	Councilor Webb	Yes

**b.** Finance – Previously covered and there are no questions for David Johnson. Mr Huttl recommends councilors schedule individual sessions with Mr. Johnson.

- c. Public Works John Isadore reads off of his written report that has been added as part of the record. Main things are nearing completion of permitting to upgrade AZ lift station (?) and need to schedule emptying Hummus Pond before rains. Additionally, in response to the Anvil Fire, the city has entered into 2 agreements with the Federal government to help with the firefighters; one for providing potable water to the camp which has approx. 1000 workers and one to remove the wastewater. We should be on high alert, if the Elk River substation gets affected by the fire, we'd lose power in town; John Isadore recommends that the city needs to update its Emergency Response Plan to ensure we have emergency generators to run the water and sewer systems.
- d. Police None
- e. **Planning** Councilor Rask suggest that planning commissioners should go to properties when considering at an application so they can be informed; John Huttl explains that there can be issue with that because as government entities we can only enter private property when invited. Planning reports are intended to bring all the needed information to the PC members.
- **f.** Mayors Report Has been going to the Anvil Fire Co-operator meeting every morning, so far everything has been going fine but anything we can do to help the firefighters would be appreciated.

Prior to Liaison Reports; Councilor Vilisis motioned to extend the meeting and take a recess

Councilor Burns seconds the motion.

Vote passed 3-3 with Mayor Cox voting in favor of the extension.

Councilor Burns	Yes	Councilor Pogwizd	<u>No</u>	Councilor Rask	<u>Yes</u>
Councilor Tidey	<u>No</u>	<b>Councilor</b> Vileisis	<u>Yes</u>	Councilor Webb	<u>No</u>

#### g. Liaison Reports

- i. Port Webb: Crane work is in process.
- ii. School Rask: Met with the Superintendent; there is interest in setting up a career day and field trips to the sewer and water plants, and the school is low on PE equipment.
- iii. Fire District Tidey: The Fire District is on patrol and dealing with the fire.
- iv. Watershed Vileisis: Mostly a continuation of last months, still in the process of acquiring land.

- v. Parks Tidey: Upcoming Disc golf event has almost sold out and the playground RP is progressing.
- vi. TLT Pogwizd: Still looking for volunteers for the committee.
- vii. Mainstreet Burns: Bike racks have arrived and should be installed prior to next meeting. Visitor Center work is close to being done, one of the few issues left to resolve is the key. Public works is asked to install a combination lock box for the key on the side of the building.
- viii. Emergency Mgmt. Burns: Facebook page has been made and has approx. 600 members. The EMC is heavily recommending citizens have a go bag ready, this is especially critical at this time to the Anvil Fire.
- ix. N2N Rask: Has gone to multiple N2N meetings. The address issue they previously had has been dealt with. N2N feels as though the city doesn't support them, Liaison Rask reiterated that the city supports their efforts, but ultimately its their effort, not the cities. In order to get better insurance for the location of the camp, N2N is asking if we could lease them the land as they need a lease to move forward on insurance. They would also like assistance on building a fence on the property and landscaping work. Additionally, they would like to hang signs stating that the property isn't an open campground. Councilor Pogzwid then ask if "No Open Fire" signs were ever hung? - no. The councilors then asked what the long-term plan for N2N is – they ultimately want to purchase property to do their work on and currently working with ADAPT to get addiction services in town. Legal Counsel Kudlack recommends caution on leasing city property as we could still be liable if constitutional rights are being violated. The amount of people in the camp has increase from 2 to 8 since the council first voted on the issue and by consensus the council believes that the camp has only gotten worse since that time. Councilor Burns suggests that regular meetings between the city and N2N and other partners are needed. Due to the scale of this issue the Council believes that this should be a workshop in the near future and at least reevaluate the location of the camp; with the property behind Kar Kare being mentioned as a possibility.
  - 1. Officer Brennan (new PO officer): Has 20 year of law enforcement experience and believes our system is broken. The camp is growing because the officers have been removing people from private property, including another camp between 4 private properties on a city right of way. Officer Brenan was not aware of the existence of N2N and hasn't been able to get in contact with any of the members but would volunteer to engage with the organization to provide a law enforcement perspective and help to improve collaboration. He has been doing what he can and while a good number of homeless

individuals are complaining, there are also a lot of drug and mental health issues that create issues. Additionally, there are concerns over pollution as a lot of these camps are along waterways so that the water can be used to remove waste (biological and trash) from the sites which is also a problem.

#### 7. Old Business

- a. Emergency Response Commission:
  - i. Burns motions to approve the Ordinance for a first reading.

- iv. Discussion revolved around the lack of job descriptions, the fact that we're currently in union negotiations and shouldn't give one employee a raise and if Joseph is receiving pay appropriate for the work that he's doing. Job descriptions are currently in process, the union stated in writing that this is fine as it's not a raise it's a reclassification to bring Josephs title and pay in line with work that he does.
- v. Burns motions to accept Resolution 2023-24
- vi. Vileisis seconds the motion.

vii. Vote passed 4-2 @ 9:16 with no further discussion.

### MEMORANDUM

то:	Mayor and City Council
From:	John Huttl, City Administrator
Date:	October 19, 2023
Re:	Sudden Oak Death (SOD) Trees on City Property

Accompanying this memorandum are: an email exchange between me and State of Oregon Department of Forestry Randall Wiese, describing discovery of Sudden Oak Death (SOD) on some privately owned property in town, and the concurrent discovery of SOD in trees on City owned property.

The Department of Forestry asked the City for permission to remove the SOD trees on City owned property. I agreed, allowing up to five trees to be removed. If more trees than that were discovered, I proposed formulating a plan to address the situation.

CC'd on the email chain were Parks Commission Chair Bryan Thompson and City Public Works Supervisor John Isadore.

No City Council action is requested at this time. This is information only. Further details will be provided as information comes in.

Respectfully Submitted, /s/ John Huttl, City Administrator

Hello Randy Wiese,

You have my permission to remove the trees on the City property identified in this image. If your investigation uncovers additional trees, then you have my permission to remove those as well, up to five additional trees. Anything more than five, we would need to re-visit and come up with a plan. Thank you, John John Huttl City Administrator City of Port Orford jhuttl@portorford.org w 541 366 4568

Hi John,

Here are two maps of the property I talked to you yesterday about in Port Orford. On the north side of the Starr Property there are a few trees on the City that are dying. We sampled one last year and it came back from the lab as being infected. When we are doing the project on Starr, I would like to get the few trees that are right behind his also so that we don't have to come back around his place again.

Take a look and maybe some time soon we can meet to talk about it and Sudden Oak Death in general.

Thanks,

Randy Wiese Sudden Oak Death Program Oregon Department of Forestry (541) 294-8425

#### Watershed Liaison Report, Oct. 2023 Submitted by Councilor Ann Vileisis

Along with Administrator Huttl, I've continued to bird-dog the final steps in our effort to purchase the Wilson/TCF land in our watershed, which has been hindered by some bureaucratic details beyond our control. We recently met with DEQ and *hopefully* we've managed to find a good path through the jam.

I've been working with Curry Soil and Water Conservation District and Administrator Huttl to develop an Intergovernmental Agreement (IGA) that will enable Erin Minster to keep doing her terrific work of helping to manage gorse in our drinking water source area (watershed) and in our community. This has been in progress for several months but we finalized a workable draft that will be on the 10/19 agenda for your consideration.

Some great news is that Port Orford recently received a grant (that we applied for) for technical assistance to help us find and apply for additional watershed grants for projects that serve the dual goals of improving water quality and fish habitat (such as removing the failing culvert up in our watershed and dredging our reservoir). Along with Administrator Huttl, we met with staff from CCD and COLT who will be helping us. I can provide an update at the meeting.

I will join City Staff and watershed council chair Linda Tarr on Oct. 19 in taking Driftwood students on a field trip up to our watershed and reservoir. This is one of several field trips that give our kids a chance to get to know and understand our city's water infrastructure. I can provide an update at the meeting.

The Port Orford Watershed Council met the first week of October. They remain frustrated that there is no plan to repair the Wetland Walkway. They recommend a sign on the highway that says CLOSED FOR REPAIRS until the facility can be fixed. They have an idea for how to do this (with a sticker) and have volunteered to help.

I urged them to attend the Parks Commission meeting to collaborate with Parks on how to get the wetland walkway project into the queue for repairs since the wetland walkway is included as a facility in the Parks Master Plan. They did attend the Parks Commission meeting. This is an ongoing discussion.

The Port Orford Watershed Council continues to work on the project of clarifying its organizational status. At this point, their goal is to be an organization of volunteers that helps and serves the city but not as an official a "commission of the city," which requires extra city staff capacity. They will be reworking their bylaws and mission statement and will aim to keep clarifying how best to work with the city and the Curry Watersheds Partnership as volunteers to continue their important work of helping to protect our drinking water source areas through managing gorse and other projects.

SUBJECT: Amendment to Curtailment Ordinance Allowing Wells

#### Summary

The City Council has twice before considered allowing private wells in the City of Port Orford for domestic drinking water supply. The most recent discussion was at a workshop of September 2023. Then on October 10, 2023, the City Council directed staff to bring back an ordinance that limited the allowance of domestic drinking water wells to during the time of curtailment, with other provisions.

### Background

The City's Municipal Code regarding land development requires

All lots created through partitioning and subdivisions shall have adequate public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to prevent or minimize flood damage to the extent practicable to standards set forth in the City of Port Orford Design Standards approved by the City Council.

Port Orford Municipal Code Section 16.04.120 G.

However, the City has adopted a water curtailment ordinance 2022-04 which states:

No new, additional, further expanded or increased-in-size water services connections, meters, service lines, pipeline extensions, mains, or other water service facilities or any kind shall be allowed, approved or installed ruing a Second, Third, or Fourth Level of Concern.

This has been interpreted to preclude new water connections in the City limits. Nevertheless, no moratorium on new construction has been adopted, and therefore an alternative to City-supplied domestic water is needed.

The City has applied an un-official policy of allowing domestic water wells to service new development. There are few if any regulations on that policy. The City desires to regulate wells with city limits during the time of the curtailment.

Attached is staff's understanding of the amendment to the Curtailment Ordinance that would allow wells, under certain conditions. There is a question whether the sun-setting of the allowance for wells is tied to a time such as 24 months, or rather to the transfer of the dwelling. Staff felt that it was tied to the transfer of the dwelling, and if the dwelling remained in the same ownership, that owner could use the well. The ordinance provided has that language.

#### Recommendation

Adopt the Ordinance, with amendments as determined in best interest of the Council.

Respectfully,

/s/

John Huttl City Administrator

# City of Port Orford

TO:	Mayor and City Council
FROM:	John Huttl, City Administrator
DATE:	September 14, 2023
SUBJECT:	Emergency Response Commission

#### Summary

After Council communication, staff discussed options with councilman Burns and drafted an ordinance codifying the City's Emergency Response Commission and clarifying its membership.

#### Discussion

The City had in the past appointed members to an Emergency Response Commission. This Commission was not created by Ordinance as with our Parks Commission and Planning Commission. After discussion with the Council, staff surmised that membership should be clarified, and that the Commission should be codified.

The ordinance before the Council proposes to have membership in this Commission a blend of Citizens of Port Orford, but also of residents in our neighboring districts. These stakeholder members are anticipated to deliver perspective and resources in addition to those of the members within the city limits. Because members living within the boundaries of the Port District and the Rural Fire District may also live in the City limits and the City Urban Growth boundary, a member may live in multiple geographic qualifying areas, but only fill a requirement of a single position.

It is possible that during an emergency, the City of Port Orford will find itself having to respond before assistance from other agencies can be obtained. Therefore, this Commission will serve a valuable function for the citizens.

<u>Recommendation</u> Adopt ordinance; amend as determined in best interest of City; forward to a second reading.

Respectfully submitted,

/s/ John Huttl, City Administrator

SUBJECT:	N2NPO Draft Agreement Council Considerations

At the end of the Council's Special Meeting of October 10, 2023, Neighbor to Neighbor Port Orford (N2NPO) representative Lorin Kessler provided the City with a draft agreement or putative terms for an agreement to be drafted.

The provisions are submitted to the Common Council under Council Considerations for direction moving forward.

# Proposal by Neighbor to Neighbor Port Orford

Neighbor 2 Neighbor Port Orford (NTNPO) would like to outline the following plan to the City of Port Or-ford to help mitigate our homeless problem. We propose a six month trial allowing our community volunteer group to help the city manage what has become a homeless camp on city property located on the west side of 101, a property that would have been the continuance of 16th St., and bounded on the west side by Idaho Street. This site continues to be active, in part due to the enactment of House Bill 3115 on July 1, 2023.

NTNPO agrees to the following:

• We will supply and have serviced one locked dumpster and two Port-a-Johns. The dumpster and one Port-a-John will be placed on the western boundary of the property on the right-ofway along Idaho Street. The other Port-a-John is already in place just north of the environmental walkway, which is now closed.

• We will designate Park Monitors from our local volunteer group who will visit the site and its residents daily and remind them of our "Park Rules," outlined in our "Sleep Safe Guest Agreement," that residents will review and sign on entry. These Park Monitors will be members of NTNPO and will make sure that campers in the park are abiding by the guidelines. A Park Monitor's primary goal is to be helpful and ensure safety for everyone in the camp and in our surrounding community.

Any significant violations or dangerous behavior will be reported to the local police. NTNPO feels our police department currently is doing a fine job of handling problems in the park and we assume this will continue. NTNPO asks that the city provide the same protections to those staying at the park that they provide to local motel, hotel and short term rental residents.

If after evaluation of this six month trial period the City of Port Orford agrees to continue, we will begin work on our future plans described below:

• NTNPO will build a formal tent sites with low platforms for those who are working with us to try to end their homelessness, hoping to provide further motivation.

• NTNPO will begin working with local business owners to secure an existing commercial building in a non-residential area in an effort to create a small residential facility away from the park site. This facility will not be for the general population, but for those who are willing to work with us to gain their freedom from homelessness.

Our Requests of the City of Port Orford :

• NTNPO asks the City to lease the property to NTNPO as an entity for one dollar a year. This will allow us easier access to increased liability insurance, and it will reinforce the legality of the "hold harmless" clause.

• NTNPO would also like permission and help constructing a privacy fence 20 feet north of the parking lot. We believe we can get help from the Rotary club of Port Orford in building this as well.

• NTNPO requests the City help with simple landscaping that will enhance the look of the park and provide further privacy.

• NTNPO requests the City place signs around the site declaring that it is not an open campground, by city ordinance, but is for those who need a place to stay in accordance with HB3115. Signs will help Park Monitors enforce the rules and protect those in the park from theft or aggression.

Mayor and City Council City of Port Orford

August 21, 2023

Dear Mayor and Councilors,

I am pleased to recommend the appointment of Cora Rose as Municipal Court Judge Pro Tem for the City of Port Orford.

An attorney who graduated from U.C Berkley School of Law, Rose currently serves as a Deacon and legal advocate at St. Timothy's Episcopol Church in Brookings. She has about 12 years of experience in providing legal aid services, and is also ordained by the Evangelical Lutheran Chuirch in America. She has attended almost every Municipal Court session in Brookings for the past year, working with defendants and the Court to assure that they make their Court appearances and followup with conditions imposed by the Court.

While I have not missed a court session since my appointment as Municipal Court Judge, there are other circumstances in which the services of a Judge Pro Tem would be needed, such as when the Judge must be recused due to a possible conflict, or if the Judge must be absent for health/personal reasons.

Thank you for your immediate attention to this matter

Respectfully,

illuma
